HEATING & AIR CONDITIONING

An Intelligent Replacement Solution

(210) 519-5959

Flexible install, faster service and an easy sell, the new Rheem® ProTerra® Hybrid Electric Heat Pump Water Heater is the most efficient water heater available. It delivers impressive savings for homeowners—right away with up to a \$2000 federal tax credit and local utility rebates,¹ and ongoing with up to \$491 energy cost savings each year.² Plus, it's full of smart features your customers will love—from built-in Wi-Fi to our exclusive LeakGuard™ leak detection and prevention.³

UP TO
4X
THE EFFICIENCY
of a standard
electric water
heater²

¹Rebates vary by region. 2022 federal tax credit of 30% of the heat pump water heater and installation costs up to \$2000. ²Based on estimated annual operating cost savings of the 40, 50, 65 and 80-gallon Hybrid Electric models compared to a standard electric water heater of like capacity with minimum efficiency. ³Leak detection and prevention built-in for ProTerra Hybrid with LeakGuard only.

Flexible Installation

ProTerra Makes It Flexible & Faster

(210) 519-5959

Feel confident selling ProTerra® to homeowners while also enjoying hassle-free installation, replacement and service. Build reliable, life-long relationships by giving your clients the peace-of-mind they deserve.

PERFECT FOR REPLACEMENT

Easy replacement with the same dimensions as a standard electric water heater and one-button startup

FITS MORE APPLICATIONS

With zero clearance requirement, the ProTerra Hybrid Electric HPWH is a great option for homes with less space, even in closets

BUILT-IN PREMIUM FEATURES

Save yourself time with built-in leak detection, automatic water shut-off valve and Wi-Fi control^{1,3}

BEST-IN-CLASS WARRANTY

Deliver peace-of-mind with 10-year limited tank and parts warranty²

CONVENIENT DESIGN

All serviceable parts and condensate line are on the front of the unit, making service and earthquake strap installs easy

ADVANCED DIAGNOSTICS

View detailed alerts and alarm codes while at the water heater via the on-unit display and Rheem® Contractor App to expedite service²

¹Wi-Fi broadband connection and Rheem Contractor App required; connection between water heater and app dependent on external factors beyond Rheem's control. ²See residential warranty certificate for complete information or view warranty details at RheemWarranties.com. ³Leak detection and prevention built in for ProTerra Hybrid with LeakGuard only.

Flexible Install, Faster Service,

VALVE QUICK-RELEASE

If the actuator communication goes bad between the control and valve, you can replace it without touching the plumbing for faster service

LEAK SENSOR CHANNEL

Leak sensor replacement is easy by opening the bottom element cover and snaking the new leak sensor down the tube—360° protection, all from the front of the tank

Rheem.com/Hybrid | 3

Up to \$4,910 in Energy Cost Savings

The Rheem® ProTerra® Hybrid Electric Heat Pump Water Heater is the most efficient water heater on the market, helping homeowners save up to \$491 per year in energy costs—that's almost \$5,000 over 10 years!¹

TIME-OF-USE / DEMAND RESPONSE SCHEDULING

Homeowners can save up to \$400 over the life of the heater with time-of-use energy rate scheduling and demand response program participation³

ENERGY SAVING SCHEDULING

Program the water heater to match demand throughout the day—higher production during high use times, like the morning, and lower production for energy savings when no one is home³

SET VACATION OR AWAY MODE

Reduce water heating costs while homeowners are away for a week or just for the day—it's easy to set from a phone from anywhere through the free Rheem EcoNet app⁴

SAVE TODAY. SAVE TOMORROW.

Upgrading can pay for itself thanks to an amazing 4.07 UEF, high energy cost savings, up to \$2000 federal tax credit and available local rebates.

**Quick
Payback²**

Did you know?

The Rheem® ProTerra® Hybrid Electric Heat Pump Water Heater uses less energy to operate than a classic 100 Watt incandescent light bulb¹

Sustainability that works

Homeowners don't have to choose between sustainability goals and enjoying hot water

HEAT PUMP TECHNOLOGY

The ProTerra Hybrid Electric HPWH pulls heat energy from the air around it to heat water, making it the most efficient water heater on the market² with up to a 4.07 UEF

CARBON FOOTPRINT REDUCTION

The ProTerra Hybrid Electric HPWH uses 75% less energy³ than a standard electric water heater to help minimize your impact on the environment

LEAKGUARD™ AUTO WATER SHUT-OFF VALVE

The all-inclusive leak prevention system that limits leaks to no more than 20 oz. of water⁴ to protect homes from damage

¹Based on comparison of the annual operating cost of a 40- and 50- gallon hybrid model and single 100 watt incandescent light bulb with an annual operating cost of \$132. ²Based on review of available residential water heaters. ³Based on comparison of 50-gallon Rheem® Hybrid and standard electric tank with minimum efficiency. ⁴Source: Rheem leak-sensing data; testing under a vacuum lock using 50 gallon tank, no expansion tank, average tank pressure of 40 psi, assuming no additional faucets are opened.

The smartest water heater on the market

BUILT-IN ECONET® WI-FI TECHNOLOGY

Homeowner can adjust water temperature, track energy usage and set vacation mode—all from a mobile device¹

NOTE: EcoNet App subject to change without notice.

LEAKSENSE™ LEAK DETECTION

Alerts the homeowner about a leak with built-in leak detection system that detects any leak—large or small, internal or external—in as little as 15 seconds²

ENERGY USAGE TRACKING

Homeowners can view weekly, monthly and yearly energy usage reports from their phone to help you better manage energy consumption

OPERATING MODES AND SCHEDULING

Schedule set point adjustments and choose from five operation modes from the EcoNet App: Energy Saver, Heat Pump, Electric, High Demand, Vacation

¹Wi-Fi broadband connection and EcoNet App required; notifications are dependent on external factors beyond Rheem's control. EcoNet is a registered trademark of Rheem® Manufacturing company. ²Water leaks from the heater only, as tested across scenarios including a minimum of 6.5mL/min volume leak rate, using most common installation scenarios. Applies to ProTera® Hybrid with LeakGuard. Source: Rheem Leak-Sensing Data. Time starts when leak begins and ends when sensor alarm is triggered. ³Applies to ProTera Hybrid with LeakGuard models only. Source: Rheem leak-sensing data; testing under a vacuum lock using 50 gallon tank, no expansion tank, average tank pressure of 40 psi, assuming no additional faucets are opened.
